

# HT 130 and HT 131 Extended Length Pole Pruners

HT 130 Fixed Shaft  
HT 131 Telescoping Shaft  
for Professional Users

HT 131 telescoping shaft pictured above

**Extended length pole pruners powered by large displacement 4-MIX® low emissions engine for pruning and maintaining trees.**

The HT 130 is equipped with a fixed length shaft, while the HT 131 features a telescoping shaft that can be adjusted to reach about 16'. This emissions compliant 4-MIX® engine offers the user more torque and power, as well as fuel efficiency.

### Features

- Powered by a STIHL 4-MIX® engine
- Automatic chain oiling
- Side access chain tensioner

### Specifications

Displacement	36.3 cc (2.2 cu. in.)
Engine Power	1.4 kW (1.9 bhp)
Fuel Capacity	530 cc (18.0 oz.)
Chain Oil Capacity	251 cc (8.5 oz.)
Oilomatic® Chain	3/8" PMN
Ematic™ Guide Bar	12"
Shaft Length	
HT 130 fixed	5'7"
HT 131 variable	5'7" to 11'6"
Weight with Cutting Attachment	
HT 130	5.8 kg (12.8 lbs.)
HT 131	7.5 kg (16.5 lbs.)

### IMPORTANT INFORMATION

**DANGER! RISK OF ELECTROCUTION!** Pole pruners are not insulated. Approaching or contacting electric power lines with these tools may cause serious injury or death from electrocution. Electricity can jump from one point to another by means of arcing and/or may be conducted through damp branches. Maintain a clearance of at least 50 feet (15 M) between the tools and any electrical line carrying a live current. To reduce the risk of injury from falling objects do not cut vertically above your head. Always wear a safety helmet and eye protection. Keep bystanders away. Use only STIHL authorized cutting attachments.
